West and Wife was here

O how i wish that you was Here it seems that it is impossible to believe it all, this day of all others my thoughts go wandering out to thee where ever you may be to day if you ever think of me that is true as ever, but it must all be a sacrifice unto God and the sooner it is done the better but i can never forget if you die my only wish is to die then may i could see you the best for there is no happiness here Now for me,

Will it never cease to be same thing to talk about to me if they would only let the dead bury go it would be the best to be called up all the time for things that others have done i am getting tired of it for my part and will say so the first time

Sunday April 23 Th.

A very heavy frost this morning and cold enough for a good fire, I am out of the kitchen this morning for the first time in 12 weeks and have much has happened in that time it is wonderful what changes time does bring. There goes one that is surprised very hard as well as myself but i will try to prove it out that they are all mistaken. they all keep asking me what i intend to do as if they could not see that i intended to stay but they think because i cannot speak in meeting and make great promises that i intend to go, now what is the use of all that when they say they have not got any confidence in me i intend to keep still till i mean that they have more in me than what they have at present, O where art thou this lovely morning can you give me one thought i wonder

we have good i can be. if i offend

help me i pray and be present
to all ok i if i could be as present
as i was once there i would be glad
conspiring has all but i will try
and if i fail e i will come here
and confess it no difference how they
speak to me i must speak to them
as it becomes a sister in the gospel

We went up to singing meeting this morning. J Hubard & hes sister and hes child. are here. O my how cross and rough Jennie is i am here glad that me. must not be with them much.
The princess was here last night to meeting and i suppose that some one thought not some one on our side was getting it i seen them wen going the one that set by their side to give them a hint of what they went. but i seen it all and knew what they went and if i ever have a chance i will give it out to them again
Elder Tallie asked me if i was going to be a believer and i said yes. so i want the help of all the good spirits to help me keep my vow. i know that this is the best way but it seems that i have no one to help me as i want them to but in the end i will come out the best there

all that have borne a cross here will have less to go through in the world hereafter but if I could always be at best with my self as much as I am with others I would be all right good by my companion the painters commenced monday last

June 2.

the hand from ones I in the country was here last night. Elders Emely was here and stayed all night, they brought Cara back the next night O why is it some have so much more to bear than others but one thing is certain if I am persecuted now their time will come some time. June 19th.

A very nice day but it did look as if we would have to stay at home today. but i have enjoyed my self very well, but if i could only be happy all the time how nice it would be but maby it will be so after while. This thing of being pouted up ever little while is not very pleasant. i will try hence forth to be good so that it will not have to be so. now this thing of coming home from meeting and going as we have been in the habit of is not what it aught to be it is not setting a good example before the world and it is more like Sundyes.

June 20th
